

RecoveryTherm™

Hot Vibration Back & Core

An all-in-one device for advanced back and core relief.

Heat and vibration for advanced relief.

RecoveryTherm™ Hot Vibration Back & Core is an all-in-one wearable device that uses a combination of vibration and fast-activating heat to deliver advanced recovery from back and core pain.

Personalized pain relief

Customizable levels of heat and vibration helps with everything from minor muscle tweaks to injuries and aches to menstrual cramps, as well as chronic lower back pain and post-workout recovery.

Carbon Fiber mesh and Germanium Recovery fabric.

Our innovative Carbon Fiber mesh distributes consistent heat around your body, while Germanium fabric naturally emits far infrared light to help regulate temperature, increase circulation and enhance the body's natural healing process.

Key Features:

- Three levels of heat for back and front treatment
- Three modes of vibration for independent use or with back heating
- One size fits all design featuring Carbon Fiber mesh and Germanium Recovery Fabric
- Removable battery compatible with other RecoveryTherm products
- Three hour battery life

What's Included:

- RecoveryTherm Hot Vibration Back & Core device
- Removable battery
- Soft case
- Type-C charging cable and power adapter
